COMMUNITY IMPACT DAY

A team of 30 strong volunteers worked tirelessly for a day with Canal & River Trust at Sprotborough Canal.

**Canal &
River Trust**

Making life better by water

What did we do?

Preparation started months before the volunteering day.

We built bespoke picnic benches and planters making ingenious use of recycled wood and scaffolding poles

Once the benches and planters were ready we set the date with our colleagues at Canal & River Trust.

We were able to clear vegetation and mud from footpaths and steps, cut grass along the towpath, repaint bollards, benches, and lock ladders, and clear graffiti. Watch the video on our YouTube channel at <https://youtu.be/FB4VER46WFw>

Thanks to our supply partners Speedy Hire and Whitcher Wildlife for their collaborative support.
